

Item	Qty.	Description
4A,4B	1,1	130.495" Z245 curved Extrusion
5A,5B	1,1	14.783"w S44 Horizontal Extrusion

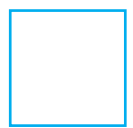

- Steps:**
- 1) Assemble curved extrusions [4A-4B] together. See **Z245 Spline Connection** detail.
 - 2) Attach angled ends of horizontals [5A,5B] to assembly [4A/4B] as shown. See **S44 to Z245 Connection** detail.
 - 3) Connect horizontal [5A] to Wall horizontal [9B]; attach horizontal [5B] to Wall horizontal [13B] as shown.
 - 4) Lock horizontals [3] to curved assembly [4A/4B], securing infills.

Section Being Assembled is Highlighted in BLACK

 = 1 sq foot

Using Your Setup Instructions

The Aero Setup Instructions are created specifically for your configuration. The instructions include an exploded view of the frame which is sequentially labeled. We encourage you to review the instructions before attempting to assemble your exhibit.

Connections are kept very simple; no tools required. Everything assembles with push-button connectors.

Cleaning and Packing Your Display

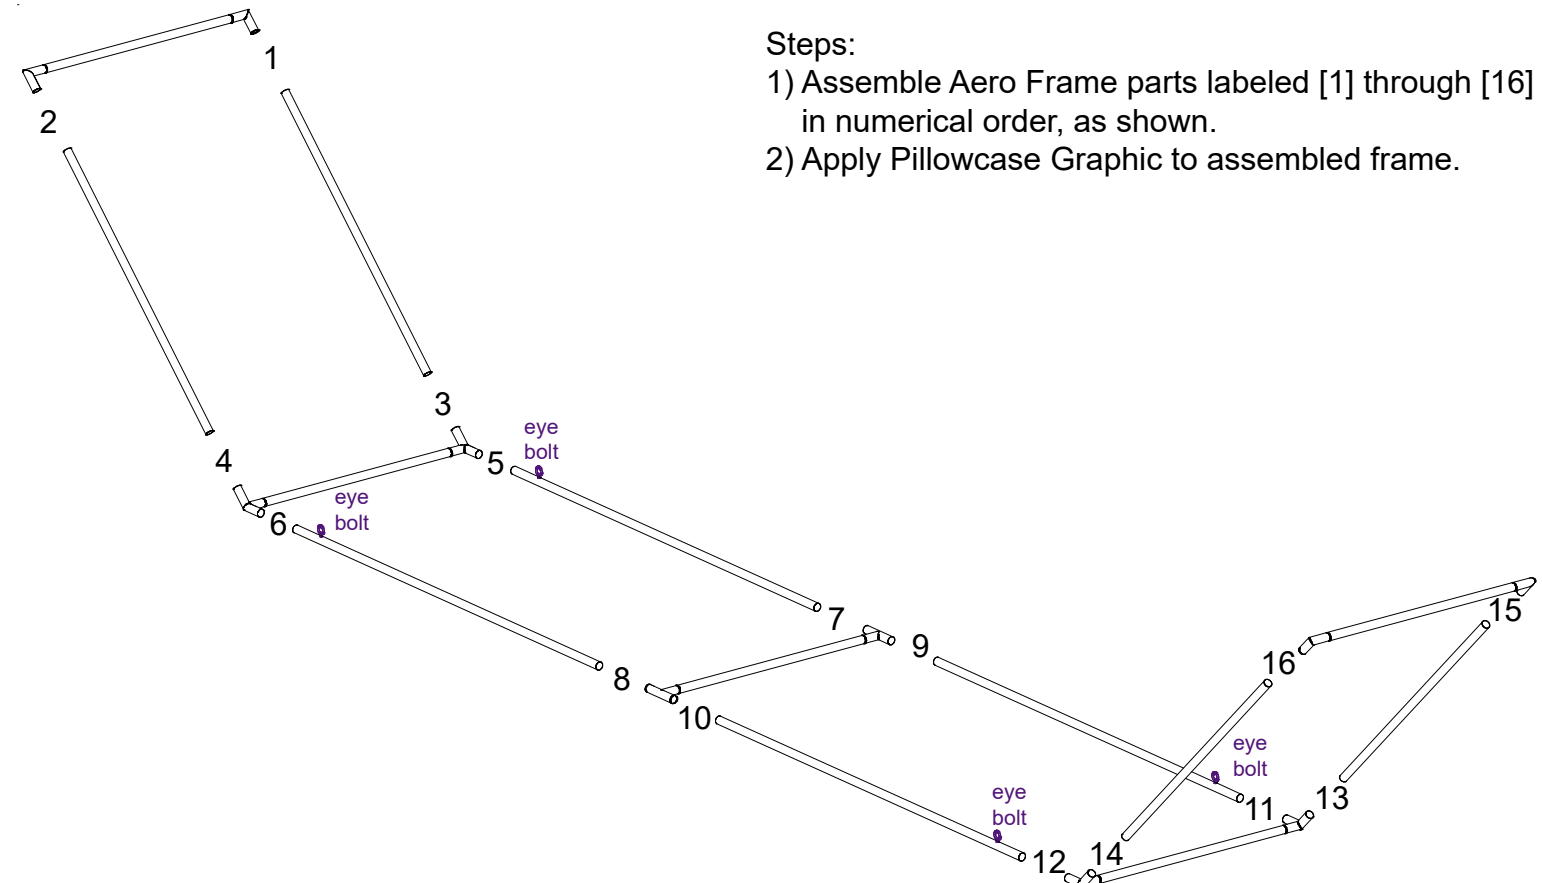

- 1) Use care when cleaning aluminum extrusion or acrylic inserts. Use only non-abrasive cleaners.
- 2) Retain all packing material. It will make re-packing much easier and will reduce the likelihood of shipping damage.

Connections are made by holding the button down and sliding the red tube into opposing tube until button locks into the hole. To disassemble, push button and pull or twist extrusions apart.

When assembled

Steps:

- 1) Assemble Aero Frame parts labeled [1] through [16] together in numerical order, as shown.
- 2) Apply Pillowcase Graphic to assembled frame.

SETUP INSTRUCTIONS

*** Light Attachment**

Attach lights to Horizontal where desired and tighten in place.

*** Header Attachment**

- 1) Slide A10 connector into groove of extrusion.
- 2) Tighten set screw to secure A10 to extrusion.
- 3) Insert Header into Clamp.
- 4) Tighten knob to secure wing in place.

*** Keyhole Attachment**

Insert bolts of Aero frame into keyhole slot in groove of vertical extrusion, slide Aero frame down to secure.

Steps:

Refer to the SEG Installation general information page.

- 1) Apply SEG graphic to front of frame assembly.
- 2) Connect Aero Frame to key holes on vertical [3].
- 3) Attach Header Graphic to top horizontals using A10 clamps.
See [Header Attachment](#) detail.
- 4) Connect Lights to top horizontals.
See [Light Attachment](#) detail.

When assembled

*** Custom Cam Lock Connection**

Attach cam lock to adjoining extrusion; tighten set screw to secure connection.

*** Standoff Barrel & V4 Attachment**

Slide V4 Connector into groove of vertical extrusion. Tighten set screws to secure in place. Attach Standoff to V4.

*** Bolt to T-Nut Connection**

Steps:

- 1) Attach header lightbox verticals [7,8] to front of closet panel [A] using Bolt to T-Nut Connection.
- 2) Connect header frame assembly [1/2/18/19] to side of lightbox vertical [5], using standoff barrels & V4 connectors. See Standoff Barrel & V4 Attachment detail.
- 3) Lock extrusion [9] to underside of header frame horizontal [18]; attach extrusion [9] to lightbox vertical [5] using standoff barrel, standoff cap & V4 connector as shown.
- 4) Connect header frame [5/6/20/21] to header lightbox vertical [1] using custom cam lock. See Custom Cam Lock Connection detail.
- 5) Attach header vertical [2] to pill slot on header vertical [5] using custom cam lock. See Custom Cam Lock Connection detail.

When assembled

Item	Qty.	Description
9	1	24" angled Z45 Extrusion

Gusset Attachment

Retain all packing materials.
DO NOT DISCARD.

* CEI-110 Straight Connection

1. Insert TSRV4 Bracket into center groove & V4 Connector into front groove of extrusion.
2. Slide Connecting extrusion over exposed end of bracket & connector.

3. Use Set Screws to secure extrusions.

* CEI-110 Corner Connection

- 1) Insert TSRV2 and A1 Brackets into milled groove of extrusion.
- 2) Slide connecting extrusion over exposed end of brackets.
- 3) Use Set screws to secure extrusions.

* Frame to Wall Attachment Detail

Wall Mounting Bracket
Screw brackets to wall.
Note: must attach to stud.
Hang top extrusion from bracket with pin inserted into groove. Spin bottom bracket to insert pin into groove of bottom extrusion.

* Transformer Wall Mount

Attach transformer to wall using screws.

Item	Qty.	Description
1	1	50" h CEI110 Vertical Extrusion
2	1	50" h CEI110 Vertical Extrusion
3	1	59.5" w CEI110 Horizontal Extrusion
4	1	59.5" w CEI110 Horizontal Extrusion
5	1	59.5" w CEI110 Horizontal Extrusion
6	1	59.5" w CEI110 Horizontal Extrusion
7	1	46.353" h Z45 Vertical Extrusion
--	12	TSH1 Wall Bracket

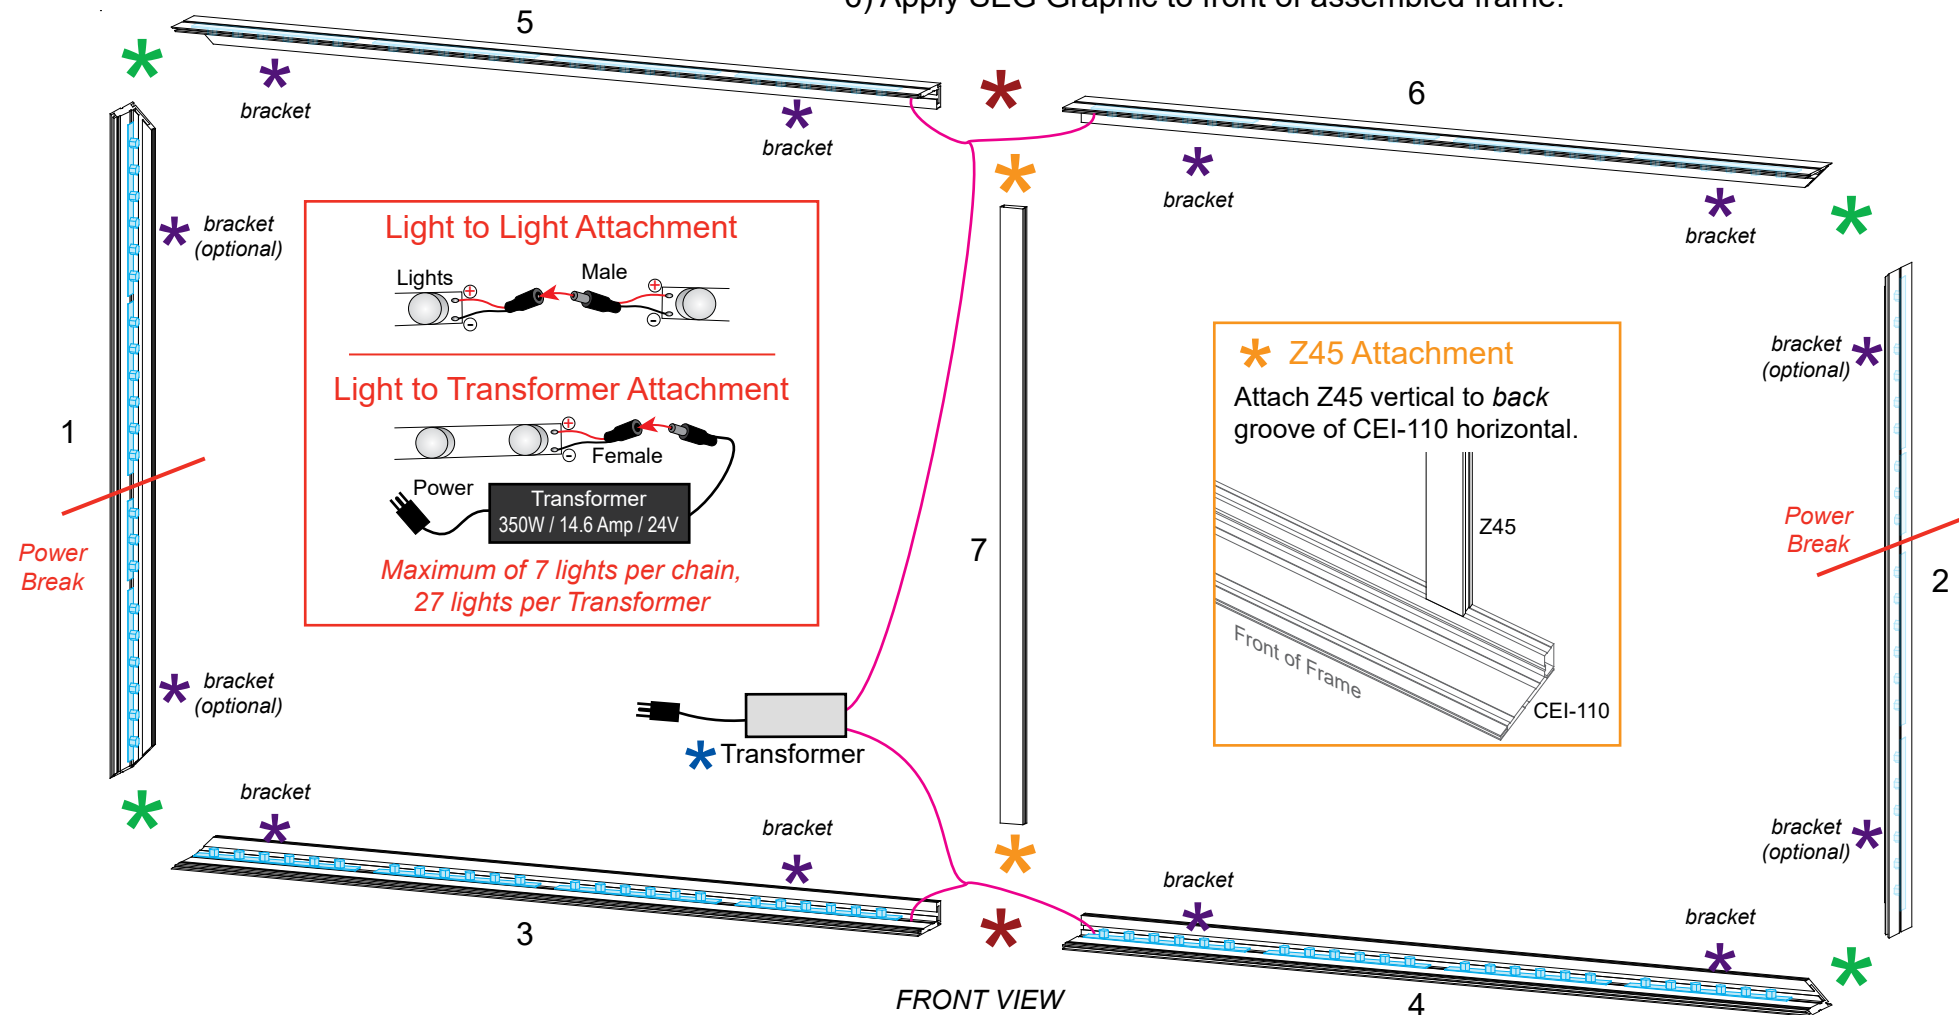

When assembled

Steps:

- 1) Assemble horizontals [3-4], [5-6] together using straight connectors. See **CEI110 Straight Connection** detail.
- 2) Connect verticals [1,2] between horizontal assemblies [3/4], [5/6] using corner connectors. See **CEI110 Corner Connection** detail.
- 3) Attach vertical [7] between horizontal assemblies. See **Z45 Attachment** detail.
- 4) Connect power cords to Supernova lights as shown.
- 5) Attach Frame and Transformer Wall Bracket to wall. See **Frame-to-Wall Attachment** & **Transformer Wall Mount** details.
- 6) Apply SEG Graphic to front of assembled frame.

Assemble frame flat on ground.

SEG Graphic Installation

It is important to first insert graphic into each alternate corner, then to the sides of the frame. If this is not done, graphic will not fit into the frame correctly.

Step 1
Insert corner A. Turn edge of graphic so silicon welt is perpendicular to face of graphic. Insert narrow side of welt with fabric to outside into the channel. Repeat for other side of this corner.

Step 2
Repeat Step 1 for opposite corner C, then insert corner B, followed by corner D, to complete the installation of the corners.

Graphic Removal

Step 3
Once all corners are inserted, press one silicon edge into channel from corners and work toward the center. Make sure welt is fully inserted into channel. Continue until all sides are done. Smooth out edges of graphic.

To remove the graphic from the frame, locate the fabric pull tab. Gently pull up on the tab to remove the fabric.

SETUP INSTRUCTIONS

Assemble lower horizontal extrusions [5,6,7,8,9] between vertical extrusions [1,2,3] & [4].

Insert lower & upper front infills between verticals [4], securing with horizontal extrusions [8,9,9A].

Install Door between verticals [2,3]. Then attach horizontal [7A] between verticals [2,3]. Slide back infills between verticals [1,2] & [3,4] & secure with upper horizontals [6].

Affix Shelf Supports to Velcro on inside of counter; place 2-piece internal Shelf onto shelf supports.

Insert side infills between verticals [1,4], then attach horizontals [5A] between verticals, securing infills. Attach Shelf Pins to horizontal [9A].

Place 2-piece Lower Counter Top onto counter assembly.

Attach support horizontals [4A] to front & back of verticals [4]. Place 2-piece Upper Counter Top onto assembly.

Completed Assembly

Item	Qty.	Description	Item	Qty.	Description
